PROFILE

I have a strong skill set in PHP and its frameworks like CodeIgniter and Laravel. Additionally, I am proficient in frontend technologies including HTML, CSS, Bootstrap, React, JavaScript, and jQuery. Recently, I have been working in Node.js and completed a MERN stack project. I began my journey as a Full Stack Web Developer at Trustech Software House, completing my course in October 2021. Subsequently, I joined another software house for an internship in 2022, where I continue to work. With 2 years of experience, I have completed 11 projects and trained numerous interns. Notable projects include 4 e-commerce websites, a cryptocurrency buy-sell website called Coin247, a web game featuring a random employee gift winner, an online hospital website named MTN Doktor Connect, and a school management website.

EDUCATION

Bachelor of Science – BS, Computer Science

Aug 2019 – Aug 2023

University of Agriculture, Peshawar

I pursued a Bachelor of Science in Computer Science (BSCS) from the Agricultural University of Peshawar, graduating in 2023. During my academic journey, I gained a comprehensive understanding of computer science principles, programming languages, and software development methodologies. My final year project, the School Management System developed in Laravel, stands as a testament to my practical skills and ability to apply theoretical knowledge to real-world projects. This project encompassed features such as attendance tracking, teacher promotions, student fee systems, and result management, demonstrating my proficiency in developing robust and functional web applications.

WORK EXPERIENCE

Website Developer

Jul 2022 – Present

Devify Solutions, Pakistan · On-site

As a Senior Developer at Devify Solutions, I have been instrumental in leading the development and deployment of over 11 projects, spanning diverse domains such as e-commerce, cryptocurrency trading, hospital management, and web gaming. My role involves not only coding and technical implementation but also mentoring and training new interns, ensuring a continuous flow of talent and knowledge within the team. I am proud to have contributed to projects like Coin247, a cryptocurrency buy-sell platform, and MTN Doktor Connect, an online hospital management system, showcasing my ability to deliver high-quality solutions that meet client needs and industry

TECHNICAL SKILLS

PHP & PHP Frameworks: CodeIgniter, Laravel

Frontend: HTML, CSS, Bootstrap, React, JavaScript, jQuery

Node JS

SOFT SKILLS

1. **Leadership:** Ability to lead and guide teams, make informed decisions, and mentor new talent.
2. **Problem-solving:** Proficiency in identifying and resolving technical issues, finding innovative solutions, and optimizing processes.
3. **Teamwork:** Collaborative approach to working with cross-functional teams, fostering a positive and productive team environment.
4. **Time management:** Efficient in managing tasks, prioritizing workload, and meeting project deadlines.
5. **Adaptability:** Quick to learn new technologies, adapt to changing project requirements, and thrive in dynamic environments.
6. **Attention to detail:** Thorough and meticulous in code reviews, testing, and ensuring high-quality deliverables.

CERTIFICATES

Full Stack Developer Certification

Jun 2021

I completed the Full Stack Developer Certification from TRUSTACK Software House in 2021. This certification program equipped me with a comprehensive skill set in both frontend and backend development, covering languages, frameworks, and tools essential for full stack web development. Through hands-on projects and practical training, I honed my abilities in PHP frameworks like CodeIgniter and Laravel, as well as frontend technologies including HTML, CSS, Bootstrap, React, JavaScript, and jQuery. This certification not only validated my expertise but also provided me with the confidence and knowledge to excel in the field of web development.
